## XXIX INTERNATIONAL SUMMER COURSE

The Course consist in morning and afternoon classes, from 10 to 13 hours and 17 to 20 hours. During those days, we organize 2 seminars for the parents, inside the XXIX Summer Parents School.

Professorship of the “Huerta del Rey” and different Collaborating Experts.

The “Huerta del Rey” Center, member of the European Talent Centre in Spain, is a Center specialized in the identification, follow-up, training and research, being authors of 23 books and psychopedagogical material for gifted students. The fact that we work, for 30 years in the different levels previously mentioned -and linked between them- allow us to have a wider view of the current situation of giftedness. Because of this, at the same time, we get a better knowledge in order to optimize the development of the child or teen both from a cognitive and social-affective perspective.

The uniqueness of the “Huerta del Rey” Center and its working methods, made it a **Center of Resources** for parents, youth, professionals from Education, Psychology and other related sciences. Center of Research with Psychology Doctorates, Education Sciences and Medicine, with agreements with national and international Universities and several Ministries.

The Educational Psychology and Social Enrichment Model (EPSEM) is based in the study of the development differences in gifted students, in base of an identification and exhaustive evaluation that brings the knowledge of the characteristics of each individual in order to create an orientation and intervention regarding all kinds of factors: scholar, emotional, motivational, social and so on.

The Ampliation Courses are given by a Team of Psychologists, Pedagogues, teachers from all levels of Education from Primary Education to University and Specialists, counting with the collaboration of different Public and Private organism and recognized Professionals. It is planned in order to achieve the general and specific objectives already programmed and known by everyone, the EPSEM, having as main goal, for longer than two decades: *“It is not about making exceptional adults, but happy children”*.
