

Call for Application to be a European Talent Centre or a European Associated Talent Centre in the European Talent Support Network

The Qualification Committee invites European or in case of Associated Centres non-European talent support organisations to submit their application to become a European or Associated European Talent Centre.

A **European / Associated European Talent Centre** should be an organisation, or a distinct part of a larger organisation, established for this role. European Talent Centres might organise activities in the field of high ability in a region or a country (meaning that there might be more than one European Talent Centre per European country, and applications may cover more than one country).

You can read about the European Talent Support Network in its official Articles [HERE](#).

You have to apply in 2 different ways:

1. **Please complete the on-line Application Form by 31 January 2020 and**
2. **please you send the same Application Form (can be downloaded [HERE](#)) to the following address: contactestn@gmail.com**

A Scoring Sheet that accompanies the Application Form can be downloaded from [HERE](#).

The Qualification Committee will evaluate your application by aggregating the scores as a whole. Applications will not be judged against each criteria separately. Successful proven past activity and potential future engagements in the field would be of key importance in this process.

Existing European Talent Centres will be re-evaluated every other year by the Qualification Committee of ETSN to ensure that they still fulfil the criteria. If the criteria are no longer fulfilled, the title of European Talent Centre may be suspended or withdrawn by the Network.

Please email any queries to contactetsn@gmail.com
